

Foam inserts

For all our models of boxes, cases and tubes:

- > available on stock, white foam, 20kg density, 5mm thick
- > on manufacture and **WITHOUT TOOL EXPENSES**, any other thickness or matter:
- from 2 to 50 mm thick,
- from 20 to 250 kg density,
- in various colors according to matter qualities,
- with two-sided adhesive or not.

To secure and protect your fragile parts within our boxes and tubes, or within yours, cost will be studied for custom cut inserts with possible inside fitting.
